

NVivo 9: TAKE CONTROL OF YOUR DATA

Join Bengt Edlund, a recognized NVivo expert and the author of six books on research software and research methods, including his most recent publication "NVivo 9 Essentials" (2011). Bengt has ten years experience training professional researchers and graduate students on NVivo qualitative data analysis software.

Bengt's workshops are for researchers who are ready to take control of their data, beginning with methods and best practices for organization and structure, and moving into the powerful analytic tools available in NVivo 9.

Each registration includes one year of individual, tailored support direct from Bengt himself, along with a copy of "NVivo 9 Essentials". Lunch and refreshments are also provided.

Day1: Structuring your data with NVivo 9

November 15, 2011 9.00–16.00 (incl. snacks and light refreshments)

Bengt explains the basic concepts and functions within NVivo 9.

TOPICS INCLUDE: Managing different forms of your data, best practices for structuring your data, working with data of quantitative and qualitative nature, leveraging methods for classifying your data, linking ideas and insights throughout your data, and using queries to analyze your data.

Day2: Analyzing your data with NVivo 9

November 16, 2011 9.00–16.00 (incl. snacks and light refreshments)

Bengt explains NVivo's analytic functions and advanced tools.

TOPICS INCLUDE: Advanced text and content analysis tools new to NVivo 9, automatic data representation through modeling, charting and a rich set of new data visualization in NVivo 9. Day2 also includes hands-on exercises on handling non-textual data sources such as audio, video and images. Bengt explains NVivo 9's innovative functionality with regards to questionnaires and surveys, and NVivo 9's new features for handling bibliographic data for academic literature reviews.

Day 3: NVivo 9 & EndNote: The Future of Research Technology

November 17, 2011 9.00–16.00 (incl. snacks and light refreshments)

Bengt's advanced workshop is for researchers who are interested in combining NVivo's advanced classificatory functionality with the power of EndNote, the world's #1 citation management tool. This one of a kind course teaches users how to combine NVivo 9 and EndNote to interface citations with research data in ways never before possible.

Day 4: Individual Consultations

Every year, Bengt provides hands-on, individually tailored research consultations to academics and professionals all over the world. Bengt will work with you and your research team to identify the best possible ways to use NVivo, EndNote, and other research software.

Time and Place

LONDON, Ontario. November 15–17, 2011

University of Western Ontario, Faculty of Education Building, Althouse College (Classroom TBD)

Fees

You may register for Day1, Day2 or Day3 individually (\$449). Multi-day registrants will receive a 15% discount. Full-time students receive a discounted rate (\$399), and additional \$25 and \$50 graduate student bursaries are available for early enrollment. Research teams can book consultations (Day4) individually.

Feel free to contact sales@formkunskap.com with any questions.
