

The fifth session in the Faculty Mentor Program series will be held on

Friday, January 14, 2011

1:30 - 3:30 p.m.

Room 121, Teaching Support Centre

The D.B. Weldon Library

Research Funding – Cradle to Grave

Identifying a source of grant or contract funding is the first of many steps required to secure funding.

The Acting Director and Managers from Research Development & Services (RD&S) will discuss the management and administration of grants and contracts at Western. The RD&S team works closely with the Faculty Research Officers at all stages – from pre-award, application signature and submission processes, liaising with funding agencies, research account setup, and post-award activities.

This interactive session will provide insight into the complexity of research administration, compliance issues, and funding agencies.

Our panel of experts from Research & Development Services:

Derek Newton, Acting Director

Carolyn Calmettes, Manager, Contracts

Theresa Russelo, Manager, Research Grants
