

ANNUAL WORKSHOP OF THE NBER GROUP ON MICRO AND MACRO PERSPECTIVES ON THE AGGREGATE LABOR MARKET

NOVEMBER 4-5, 2011

Cycles, Adjustment, and Policy Research Unit (CAP) at Aarhus University, Denmark
<http://econ.au.dk/cap>

Theme and Topics

Recent work on labor markets has stressed the importance of trading frictions in accounting for the outcomes that we observe in these markets. The focus of this conference, hosted by CAP, is to further our understanding of how frictions in both labor markets and related markets including the marriage market and the money market influence the operation of labor markets, including the cyclical behavior of unemployment and wages. The NBER Group on Micro and Macro Perspectives on the Aggregate Labor Market is part of the NBER Economic Fluctuations and Growth Program.

Program Committee

Richard Rogerson, Princeton University
Robert Shimer, University of Chicago
Randall Wright, University of Wisconsin

Local Organizer

Bent Jesper Christensen, CAP, Aarhus University, Denmark

Invited Speakers Include

Jesper Bagger, Royal Holloway University of London
Melvyn Coles, University of Essex
Robert E Hall, Stanford University
Loukas Karabarbounis, University of Chicago Booth School of Business
Philipp Kircher, London School of Economics and University of Pennsylvania
Pascal Michaillat, London School of Economics
