Mix and Match

Combine with Other Fields

Some Modules require Calculus

Major in Economics Major in Financial Economics

Both Majors are directed at students who are interested in learning economic concepts and tools, as well as their application to the real world economy and public policy. Either Major can be combined with any other Western Major for an **Honors Double Major** to tailor your degree to a wide-ranging set of possible careers.

Economics Minor

Designed for students pursuing other fields of study who want exposure to core economic concepts and tools, and an understanding of world economic and policy issues.

Common Double Majors

Economics and DAN Programs	Economics and Applied Mathematics
Economics and Political Science	Economics and Actuarial Sciences
Economics and Psychology	Economics and Statistics
Economics and Mathematics	

Do you know that Western's academic choices allow you to combine your Major with almost any other Major in any Faculty ~ Health Sciences, Science, Arts, etc. You are only limited by your imagination!

Thinking About DAN or Ivey?

Jump Start into DAN or Ivey with Economics

Top Reasons to Take Economics

- Great background preparation for Ivey or complementary skills for DAN Management.
- Critical/logical thinking skills for business application studies.
- Exposure to economic models and tools that can be used in real world business applications and challenges.
- Economics students enjoy HIGH success rates for admission into Ivey.
- Keeps open options of Joint Ivey-Economics degree program, Double Major with DAN Management, and Western's new **Master in Financial Economics.**

Carson Sherwood, Alumnus 2008, Honors Economics Specialization says, "Economics at Western is an excellent program that provides students with the tools needed to pursue graduate studies and excel in their future careers."
