

## Curriculum Vitae Lars Peter Stentoft

### Personal Information

Date of birth: December 5, 1972.  
Gender: Male.  
Nationality: Danish.  
Current Position: Associate Professor  
(jointly appointed with Department of Statistical and Actuarial Sciences)  
Street address: Department of Economics  
Social Science Centre  
University of Western Ontario  
London, Ontario N6A 5C2  
Canada  
E-mail address: [lars.stentoft@uwo.ca](mailto:lars.stentoft@uwo.ca)  
Web address: <http://economics.uwo.ca/people/faculty/stentoft.html>  
Phone numbers: Office: +1 519-661-2111 Ext. 85311

### Research interests

- Finance.
- Financial Econometrics.
- Computational Finance.
- Econometrics.

### Employment

- 2014-: Associate Professor, Department of Economics, University of Western Ontario, Canada. (joint with Department of Statistical and Actuarial Sciences)
- 2014-2018: Canada Research Chair in Financial Econometrics (Tier 2).
- 2012-2014: Visiting Associate Professor, Department of Finance, Copenhagen Business School, Denmark.
- 2010-2014: Associate Professor, Department of Finance, HEC Montréal, Canada.
- 2005-2010: Assistant Professor, Department of Finance, HEC Montréal, Canada.
- 2003-2005: Post-doctoral research fellow, Department of Economics, University of Aarhus, Denmark, financed by the Danish Social Sciences Research Council.
- 1997-1999: Professional Researcher, Centre for Analytical Finance, University of Aarhus, Denmark.

### Education

- 2004: PhD in Economics, Department of Economics, University of Aarhus, Denmark. Dissertation Title, 'Least Squares Monte-Carlo and GARCH Methods for American Options: Theory and Applications'. The dissertation was awarded the Jyske Banks Fund Price (Jyske Banks Almennyttige Fonds Pris) for the best PhD dissertation in 2004/2005 at the School of Economics and Management, University of Aarhus.
- 2001: MSc in Economics, Department of Economics, University of Aarhus, Denmark.
- 1996: BSc in Economics, Department of Economics, University of Aarhus, Denmark.

## Journal publications

1. Huddleston, D. Liu, F. and L. Stentoft. (2021), ‘Intraday Market Predictability: A Machine Learning Approach’, *forthcoming in Journal of Financial Econometrics*.

### Book contributions

33. Stentoft, L. (2013), ‘American Option Pricing using Simulation with Application to the

GARCH Model', in *Handbook of Research Methods and Applications in Empirical Finance*, Edited by Adrian R. Bell, Chris Brooks and Marcel Prokopczuk, Chapter 5, 114-147.

34. Stentoft, L. (2012), 'American Option Pricing using Simulation and Regression: Numerical Convergence Results', in *Topics in Numerical Methods for Finance*, Springer Proceedings in Mathematics & Statistics 19, Edited by M. Cummins, F. Murphy and J.J.H. Miller, 57-94.

### **Papers under revision**

- Efficient Variance Reduction for American Call Options using Symmetry Arguments (joint work with Francois Michel Boire and Mark Reesor, *submitted*).
- Simulated Greeks for American Options (joint work with Pascal Letourneau, *submitted*, previously titled "Improved Greeks for American Options using Simulation").

### **Working papers (most are available from my homepage or at my SSRN page)**

- Efficient Variance Reduction with Least-Squares Monte Carlo Pricing (joint work with Francois Michel Boire and Mark Reesor).
- Which Pricing Framework for Option Valuation under GARCH and Non-Normal Innovations? (joint work with Jean-Guy Simonato).

### **Work in progress**

- A Conditional Carry Trade Strategy: Explaining the Disappearing Carry Trade Risk Premium (joint work with Sha Wang)
- Efficient Pricing of Large Panels of Options (joint work with Pascal Letourneau).
- Individual Stock Variance Premia (joint work with Jeroen Rombouts and Francesco Violante).
- Mixing Gaussian and Fat-tailed Distributions to Identify Financial Storms (joint work with Galyna Gryniv and Sergii Pypko)
- One Simulation Is All you Need: One Simulation to do it all, One Simulation to price them, One Simulation to get the Greeks and forever hedge them (joint work with Pascal Letourneau).
- Option Pricing with Flexible Conditional Distributions.
- The Value of Extremes: Backtesting Basel's VaR and ES (joint work with Fred Liu).
- Valuation of American Style Employee Stock Options with Reload Features.

### **Permanent working papers (available from my homepage or at my SSRN page)**

- Option Pricing using Realized Volatility.

### **Grants and awards**

- 2021: UWO Internal Grant, Project title: 'Research in Financial Econometrics'. CAD 7,500.
- 2020: UWO Internal Grant, Project title: 'Research in Financial Econometrics'. CAD 5,000.
- 2020: Natural Sciences and Engineering Research Council of Canada (NSERC) Discovery Grant, Project title: 'Option Pricing with Multivariate GARCH Models'. CAD 135,000.
- 2019: Canadian Derivatives Institute (CDI) Research Grant, Project title: 'Affine Multivariate GARCH Models'. Co-applicant with M. Escobar-Anel. CAD 20,000.
- 2018: Social Sciences and Humanities Research Council of Canada (SSHRC) Standard Research Grant, Project title: 'Asset allocation of insurance companies: systemic, regulatory, and solvency risks'. Co-applicant with M. M. Boyer and S. Van Norden. CAD 141,600.
- 2017: Institut de la finance structurée et des instruments dérivés de Montréal (IFSID) research grant, Project title: 'Option Pricing with Affine Multivariate GARCH Models'. Co-applicant

- with M. Escobar-Anel. CAD 50,000.
- 2016: CFI – Infrastructure Operating Fund (CFI-IOF) Grant, Project title: ‘Computer-intensive high-dimensional models for financial data and risk management’. CAD 60,000.
- 2015: Canadian Foundation for Innovation (CFI-JELF) Grant, Project title: ‘Computer-intensive high-dimensional models for financial data and risk management’. CAD 500,000.
- 2014: Natural Sciences and Engineering Research Council of Canada (NSERC) Discovery Grant, Project title: ‘Finite mixture models and their use for option pricing and risk management’. CAD 90,000.
- 2012: Institut de la finance structurée et des instruments dérivés de Montréal (IFSID) research grant, Project title: ‘Pricing and Using Longevity Risk Instruments’. Co-applicant with M. M. Boyer and C. Dorion. CAD 40,000.
- 2012: Institut de Finance Mathématique de Montréal (IFM2) research grant, Project title: ‘Pricing Longevity Risk Derivatives’. Co-applicant with M. M. Boyer. CAD 30,000.
- 2011: Social Sciences and Humanities Research Council of Canada (SSHRC) Standard Research Grants Program, Project title: ‘The Financing and Management of Longevity Risk’. Co-applicant with M. M. Boyer, M. Marin and J. F. Outreville. CAD 71,500.
- 2007: Institut de Finance Mathématique de Montréal (IFM2) grant for Assistance for Young Researchers, Project title: ‘American Option Pricing: A Comparison of Discrete and Continuous Time Equity Return Models’. Principal applicant. CAD 40,800.
- 2007: Fonds québécois de la recherche sur la société et la culture (FQRSC) grant for établissement de nouveaux professeurs-chercheurs, Project title: ‘Vérification empirique de modèles de tarification à l’aide de données canadiennes’ (Testing option pricing models empirically using Canadian data). Principal applicant. CAD 45,000.
- 2005: Institut de Finance Mathématique de Montréal (IFM2) funding for new professors, Principal applicant. CAD 125,000.
- 2005: Received the first Jyske Banks Fund Price (Jyske Banks Almennyttige Fonds Pris) for the best PhD dissertation in 2004/2005 at the School of Economics and Management, University of Aarhus, Denmark. Travel grant of DKK 25,000.
- 2003: Danish Social Sciences Research Council (SSF) post doctoral research grant, Project title: ‘Empirical Evaluation of Option Pricing Models’. Principal applicant. DKK 1,400,000.

### **Seminar presentations**

- University of Laval, Quebec, Canada, 2019.
- Aarhus University, Denmark, 2019.
- Queen’s University, Ontario, Canada, 2017.
- Wilfrid Laurier University, Ontario, Canada, 2017.
- University of Waterloo, Ontario, Canada, 2017.
- DeGroote School of Business, McMaster University, Ontario, Canada, 2015.
- University of Guelph, Ontario, Canada, 2015.
- RDC speaker series, University of Western Ontario, Ontario, Canada, 2014.
- University of Western Ontario, Ontario, Canada, 2013.
- CORE (Université catholique de Louvain), Louvain-la-Neuve, Belgium, 2010.
- Aarhus School of Business, Denmark, 2009.
- Queen’s University, Kingston, Ontario, Canada, 2009.
- CREATES, Aarhus University, Aarhus, Denmark, 2008.
- Brock University, St. Catharines, Ontario, Canada, 2006.

- HEC Montreal, Quebec, Canada, 2005.
- Tilburg University, Holland, 2005.
- Maastricht University, Holland, 2005.
- Aarhus School of Business, Denmark, 2004.
- Financial Mathematics Seminar, North Carolina State University, 2003.
- Financial Econometrics Lunch Group, Duke University, 2002.

### **Professional presentations**

- 2016: Canadian Securities Institute Research Foundation Roundtable on Interest Rate Risk, Montreal, Quebec, Canada, invited speaker.
- 2015: The Conference Board of Canada Pension Summit, Toronto, Ontario, Canada, invited speaker.
- 2014: London Life Actuarial event on “Longevity Risk”, London, Ontario, Canada, invited speaker.
- 2008: IFM<sup>2</sup> Executive Workshop on “Simulation techniques for American Option pricing under GARCH”, Montreal, Quebec, Canada, invited speaker.

### **Conference presentations (within the last five years)**

- 62nd Annual conference of the Canadian Operational Research Society, June 7-10, 2021, held virtually: “One Simulation is All you Need”.
- 36th Meeting of the Canadian Econometric Study Group, October 18-20, 2019, Montreal (QC), Canada: “Option Pricing with Conditional GARCH Models”, scheduled.
- 2nd Quantitative Finance and Financial Econometrics (QFFE) Conference, June 5-7, 2019, Marseille, France: “Option Pricing with Conditional GARCH Models”.
- 53rd Annual Conference in the Canadian Economic Association (CEA), May 31- June 2, 2019, Banff, Calgary, Canada: “Option Pricing with Conditional GARCH Models”.
- 2nd International Conference on Econometrics and Statistics, June 19-21, 2018, Hong Kong, China: “Pricing Individual Stock Options using both Stock and Market Index Information”, invited speaker.
- HEC/McGill Spring Finance Workshop, May 11-13, 2018, Montebello (QC), Canada: “Pricing Individual Stock Options using both Stock and Market Index Information”, invited speaker.
- 5th ESSEC Empirical Finance workshop, March 29, 2018, Paris, France: “Pricing Individual Stock Options using both Stock and Market Index Information”, invited speaker.
- 11th CSDA International Conference on Computational and Financial Econometrics (CFE 2017) December 16-18, 2017, London, UK: “Pricing Individual Stock Options using both Stock and Market Index Information”.
- 1st International Conference on Econometrics and Statistics, June 15-17, 2017, Hong Kong, China: “Pricing Individual Stock Options using both Stock and Market Index Information”.
- 4th ESSEC Empirical Finance workshop, March 15, 2017, Paris, France: “Pricing Individual Stock Options using both Stock and Market Index Information”, invited speaker.
- 10th CSDA International Conference on Computational and Financial Econometrics (CFE 2016), December 9-11, 2016, Seville, Spain: “Which Pricing Approach for Options under GARCH with Non-Normal Innovations?”, invited speaker.
- Rimini Conference in Economics and Finance (RCEF2016), September 16-18, 2016, Waterloo, On, Canada: “Which pricing approach for options under GARCH with non-normal innovations?”, invited speaker.

- 69th Econometric Society European meetings, August 22-26, 2016, Geneva, Switzerland: “Which Pricing Approach for Options under GARCH with Non-Normal Innovations?”.
- SIAM Conference on Financial Mathematics & Engineering, November 13-15, 2014, Chicago, Illinois, USA: “Improved Greeks for American Options Using Simulation”, invited speaker.
- Northern Finance Association annual meeting, September 12-14, 2014, Ottawa, Canada: “What We Can Learn From Pricing 139,879 Individual Stock Options”.
- Workshop on Modelling and Forecasting Moment Risk Premia, March 13, 2014, Paris, France: “Which Pricing Approach for Options under GARCH with Non-Normal Innovations?”, invited speaker.
- 5th Annual CIRPÉE Applied Financial Time Series Workshop, February 8, 2014, Montreal, Quebec, Canada: “Which Pricing Approach for Options under GARCH with Non-Normal Innovations?”.
- 7th CSDA International Conference on Computational and Financial Econometrics, December 14-16, 2013, London, UK: “Which Pricing Approach for Options under GARCH with Non-Normal Innovations?”.
- 33rd International Symposium on Forecasting, June 23-26, 2013, Seoul, Korea: “The Performance of Pricing Approaches for Options under GARCH with Non-Normal Innovations”.
- 4th Annual CIRPÉE Applied Financial Time Series Workshop, February 16, 2013, Montreal, Quebec, Canada: “Option Pricing with Flexible Conditional Distributions”.

### **Professional services and administrative experience (current services listed first)**

- 2018-2019: DSAS Appointments Committee Member.
- 2018-2019: ECON Appointments Committee Member.
- 2018-2019, 2020: Special Issue Guest Editor for Journal of Risk and Financial Management.
- 2017-present: On the Editorial Review Board for the Journal of Business, Accounting and Finance Perspectives.
- 2015-present: On the Editorial Advisory Board for the Journal of Risk Finance.
- 2015-present: Co-organizer of the Financial Econometrics and Risk Management conference.
- 2014-present: On the Editorial Board for Journal of Risk and Financial Management.
- 2012-present: Associate Editor for Journal of Empirical Finance.
- 2011-present: Member of the scientific committee at the Canadian Derivatives Institute (CDI), previously the Montreal Institute of Structured Products and Derivatives (IFSID).
- 2017, 2018: Reviewer for NSERC Discovery Grants application.
- 2014, 2016, 2017: Reviewer for SSHRC Insight Grants application.
- 2016-2017: Director, Master of Financial Economics Program.
- 2016: Co-organizer of the 2016 meeting in the Canadian Econometric Study Group (CESG).
- 2015: Reviewer for NSERC Collaborative Research and Training Experience Program.
- 2015: Co-Director (Operations), Master of Financial Economics Program.
- 2014-2016: Graduate Affairs Committee member, University of Western Ontario (DSAS).
- 2014-2015: Special Issue Guest Editor for Journal of Risk and Financial Management.
- 2015: Reviewer for Mitacs Accelerate research proposal.
- 2014-2015: Professional Education Program Committee member, University of Western Ontario (DSAS).
- 2013: Member of the Scientific Program Committee for the 7<sup>th</sup> CSDA International Conference on Computational and Financial Econometrics.
- 2010-2014: co-organizer of the Annual CIRPÉE Applied Financial Time Series Workshop.

- 2007-2012: Director of the Trading Room at HEC Montreal.
- 2010-2011: Member of the Research Council at HEC Montreal.
- 2009-2011: Program reviewer for the European Finance Association Meeting.
- 2010: Program reviewer for the Financial Management Association meeting.
- 2010: Program reviewer for the World Congress in the Bachelier Finance Society.
- 2008-2009: Proposal reviewer for the National Science Foundation.
- 2006: Member of the organizing committee for the Northern Finance Meeting.
- Referee for the following journals: Computational Statistics & Data Analysis, Econometric Reviews, Econometrics Journal, European Journal of Operational Research, Finance and Stochastics, Financial Review, International Review of Economics and Finance, International Transactions in Operational Research, Journal of Applied Econometrics, Journal of Banking and Finance, Journal of Business and Economic Statistics, Journal of Econometrics, Journal of Economic Dynamics and Control, Journal of Financial Econometrics, Journal of Futures Markets, Journal of Risk and Insurance, Journal of Time Series Analysis, Journal of Time Series Econometrics, Management Science, Mathematical Finance, Mathematics and Computers in Simulation, and Studies in Nonlinear Dynamics & Econometrics.

## Teaching

- Fall 2021, 2020 and 2019: “Financial Risk Management”, joint MFE and FM Program, Departments of Economics and of Statistical and Actuarial Sciences, University of Western Ontario.
- Fall 2021, 2019, 2016, 2015, and 2014: “Applied Financial Econometrics”, joint Ph.D. and MFE Program, Department of Economics, University of Western Ontario.
- Fall 2021: “Financial Modelling”, BSc Program, Department of Statistical and Actuarial Sciences, University of Western Ontario.
- Winter 2019 and 2015: “Financial Modelling I”, BSc Program, Department of Statistical and Actuarial Sciences, University of Western Ontario.
- Winter 2014: “Time Series Econometrics”, Ph.D. Program, Department of Economics, University of Western Ontario.
- Fall 2013 and 2012: “Advanced Fixed Income and Derivatives”, HD Program, Department of Finance, Copenhagen Business School.
- Fall 2013, 2012 and 2011: “Trading in Financial Markets”, BAA Program, Department of Finance, Copenhagen Business School.
- Summer 2012, 2011, 2010, 2009 and 2008: “Trading in Financial Markets (previously “Negotiating in a Trading Room”)”, MBA Program, Department of Finance, HEC Montréal.
- Winter 2011, 2010, 2009 and 2007: “Analysis of Fixed Income Securities”, MBA Program, Department of Finance, HEC Montréal.
- Winter 2011, 2010, 2009, 2008, 2007, and 2006: “Trading in Financial Markets (previously “Negotiating in a Trading Room”)”, BAA Program, Department of Finance, HEC Montréal.
- Winter 2010, 2009 and 2008: “Négociation en salle des marchés”, BAA Program, Department of Finance, HEC Montréal.
- Fall 2010, 2009, 2007 and 2006: “Numerical Methods in Finance”, Ph.D. Program, Department of Finance, HEC Montréal.
- Fall 2006 and 2005: “Investment”, BAA program, Department of Finance, HEC Montréal.

**PhD student advising (role, school, year, first position)**

- Fulei Liu (supervisor, University of Western Ontario, Canada, 2021, Guelph University)
- Zinaida Foltin (examiner, University of Western Ontario, Canada, 2021)
- Zhenxian Gong (examiner, University of Western Ontario, Canada, 2021)
- Sha Wang (supervisor, University of Western Ontario, Canada, 2020, Kwai)
- Bohan Li (examiner, University of Western Ontario, Canada, 2020)
- Wisdom Avusuglo (examiner, University of Western Ontario, Canada, 2020)
- Saad Khan (external examiner, Queen's University, Canada, 2020, HEC Montreal)
- Lichen Chen (external examiner, Waterloo University, Canada, 2018, RBC Capital Markets)
- Galyna Grynkiv (supervisor, University of Western Ontario, 2018, Liquid Analytics)
- Heng Xiong (examiner, University of Western Ontario, 2018, Wuhan University, China)
- Bo Laursen (examiner, Aarhus University, Denmark, 2017, Dong Energy)
- Sergii Pypko (supervisor, University of Western Ontario, 2016, National Bank)
- Kadir Babaoglu (external reviewer, Rotman School of Management, 2016, RBC)
- Jingya Li (examiner, University of Western Ontario, 2015, TD)
- Xin Wang (examiner, University of Western Ontario, 2015, TD)
- Zhibo Jia (examiner, University of Western Ontario, 2014, Highstreet Asset Management)
