PRINCIPLES OF MATHEMATICAL ECONOMICS 1
ECONOMICS EC2141B 001
Department of Economics
Western University

January 2020

General Information:
Instructor: Mohammad Iftekher Hossain
Office: 4082 SSC
Phone: 519-661-2111 ext. 47963
E-mail: mhossa87@uwo.ca
Office hours: Thursday 12:00 pm - 2:00 pm
Classroom meeting time(s) & location: T 1:30 - 3:30 FNB 2240, Th 2:30 - 3:30 SSC 3018
Course website: https://owl.uwo.ca/portal
Undergraduate inquiries: 519-661-3507 or SSC Room 4075 or econugrd@uwo.ca

Registration:

You are responsible for ensuring you are registered in the correct courses. If you are not
registered in this course, the Department will not release any of your marks until your
registration is corrected. You may check your timetable by using the Login on the Student
Services website at https://student.uwo.ca. If you notice a problem, please contact your home
Faculty Academic Counsellor immediately.

Prerequisite Note:

Antirequisite(s): Economics 2210A/B.
Prerequisite(s): Economics 1021A/B and Economics 1022A/B, or Economics 2001A/B, and
0.5 course from: Mathematics 1225A/B, Calculus 1000A/B, Calculus 1500A/B; plus 0.5
course from Calculus 1301A/B, Calculus 1501A/B, Mathematics 1229A/B, Mathematics
1600A/B
Prerequisite(s) for your course can be found in the Western Calendar at:
http://westerncalendar.uwo.ca/Courses.cfm?Subject=ECONOMIC&SelectedCalendar=Live&
ArchiveID

You are responsible for ensuring that you have completed all course prerequisites and that you
have not taken any anti-requisite courses. Lack of prerequisites may not be used as a basis for
appeal. If you are found to be ineligible for a course, you may be removed from it at any time
and you will receive no adjustment to your fees. This decision cannot be appealed.

If you find that you do not have the course prerequisites, it is in your best interest to drop the
course well before the end of the add/drop period. Your prompt attention to this matter will not
only help protect your academic record but will ensure that spaces become available for students
who require the course in question for graduation.
Course Objectives:

This course aims to (i) introduce some frequently used mathematical tools in economics and business economics, and (ii) discuss some examples of how these mathematical tools are relevant in economic analysis in everyday life. The course covers calculus and matrix algebra, unconstrained optimization, and constrained optimization techniques with equality and inequality constraints. The course aims to discuss and explain several examples from consumer and producer theory, equilibrium in competitive and non-competitive markets, comparative statics, and national income accounting, etc.

Course Learning Outcomes:

After successful completion of the course, students are expected to be able to:

• present several economic functions using graphs, including linear and non-linear functions, rational functions, exponential functions, logarithmic functions, and level curves.
• solve simultaneous linear equation systems in economics using matrix inversion and Cramer’s rule.
• set up optimal timing problems and solve them using the appropriate techniques
• understand the concepts related to the derivative of implicit functions, slopes of the level curves, homogeneous functions and Euler’s theorem, concavity of functions of several variables, properties of Cobb-Douglas and CES functions including elasticity of substitution
• formulate optimization problems in microeconomics, macroeconomics, and business economics.
• formulate constrained optimization problems with equality constraint, inequality constraints, and several constraints.
• interpret the second-order sufficient conditions for optimization techniques using the Hessian and Bordered-Hessian.
• generate comparative statics from optimization problems using various techniques.

Textbook(s):

Recommended:

Web Materials:
https://economics.uwo.ca/undergraduate/undergraduate_resources/math_resources_for_ec_2100_required_courses_.html
Class Format:

Combination of lecture, problem solving and discussion
Class format will allow individual and group problem-solving. During sessions, I will ask students several questions and will encourage them to ask and answer questions. Students will require to spend a considerable amount of class time to formulate and solve problems by themselves and in groups. To do well in this course, please use textbooks, lecture notes, and lectures as complements (like left-shoe and right-shoe) instead of substitutes (like coffee and tea). Please also remember that I will discuss several topics and examples during the practice sessions that may not be available in the Textbook and posted lecture notes.

Grading:

I will determine your Grade using the total points earned by the end of the semester. Assignments/Quizzes will contribute 20%, a Midterm exam will contribute 30%, and a cumulative final exam will contribute 50% of the points possible.

**I**  Introduction

**II**  One Variable Calculus, Graphing Economic Functions, Maxima and Minima, Comparative Statics, Implicit functions, and Inverse Functions, Sketching Cost, Production, and Profit Functions

**III**  Exponential and Logarithmic Functions, The Number e, Graphing Exponential and Logarithmic Functions, Computing Present Value, Discounting, Optimal Timing, and Annuities

**IV**  Linear Algebra
Gaussian and Gauss-Jordan Elimination, Elementary Row Operations, Algebra of Square Matrix, Determinant of a Matrix, Linear Independence, Inverse Matrix, Cramer’s Rule

**V**  Calculus of Several Variables and Unconstrained Optimization, Cobb-Douglas and CES Functions, Marginal Concepts, Elasticity, Differentiation of Implicit Functions, Slopes of the Level Curves, MRS and MRTS, Homogeneous Functions, Returns to Scale, Euler’s Theorem, Concave and Convex Function, Finding Profit-Maximizing Output for Competitive Firms and Monopolists, Use of Hessian to Check the Second-order Conditions for Unconstrained Optimizations and Concavity of the Functions of Several Variables

**VI**  Constrained Optimization with Equality Constraints, Graphing Level Curves, Utility Maximization, Cost Minimization, Output Maximization, Cobb-Douglas and CES Production Functions, Marginal Impact of the Constraint, Using Bordered-Hessian Matrix to Check the Second-Order Conditions for Constrained Optimizations, Constrained Optimization with Inequality Constraints, Constrained Optimization with Several Constraints

**VII**  Comparative Statics, Review of the Materials, Introduction to Integral Calculus
Make-up exam:

For those who know in advance that they have a conflict with an exam, it is your responsibility to provide the documentation to the instructor within one week of the announcement of the scheduled exam. The midterm exam schedule in this course is during the class time, so any conflict is unlikely, and in case of any conflict, our midterm will, therefore, get the priority. However, for the final exam, if you notice any exam conflict, please meet your Academic Counselor with appropriate documents in due time to get approval for the make up exam.

For all missed exams, you must take your documentation to Academic Counselling within 48 hours of the exam. You must also notify me within 24 hours of the exam that you have missed the exam. You must meet both of these deadlines; otherwise, the Department may assign a grade of zero.

Students can self-report illnesses to excuse them from tests and assignments worth 30% or less during 48 hours. Students can self-report an absence up to two times in the fall/winter and once in the summer.

Other than the self-report illnesses, if you need an excuse from tests due to illnesses, you must print off a medical certificate and take it to the doctor, which you bring to Academic Counselling. The medical certificate is available at

https://studentservices.uwo.ca/secure/medical_document.pdf

If the Academic Counselling accepts your documentation for a midterm examination/ or you miss a midterm exam due to self-reported illness and then approved by me, the percentage for that exam will be allocated to the final exam. Please remember that the Final exam is comprehensive, and therefore, the level of difficulty is higher than the regular midterm exam.

If a student requires a make up exam for the final exam due to a valid reason, approved by the Academic Counselling, the student will need to attempt the makeup exam on a pre-set makeup exam date after getting my approval.

There will be no make up tests for missed online quizzes/ tutorials as we will count the best four out of all quizzes, assignments, and tutorials.

In all exams, please bring the following:

Current UWO student ID.
Pencil.
Non-programmable calculator out of its case. (Graphing calculators, cell phone calculators, laptops, watches, other electronic devices, and pencil cases are not allowed during exams.)

Copyright:

Lectures and course materials, including powerpoint presentations, outlines, and similar materials, are protected by copyright. Students may take notes and make copies of course materials for their educational purposes. Students may not record lectures, reproduce (or allow others to reproduce), post or distribute lecture notes, wiki material, and other course materials publicly and/or for commercial purposes without written consent.
Please Note
Department Policies for 2019-2020

Remember that the University expects all students to take responsibility for their own Academic Programs. Students should also check their registration to ensure they are enrolled in the correct courses.

1. Guidelines and policies for the Faculty of Social Science and the Department of Economics are posted online in the current Western Academic Calendar at: http://westerncalendar.uwo.ca.

3. **Cheating as an academic offence**: Students are responsible for understanding what it means to “cheat”. The Department of Economics treats cheating incidents very seriously and will investigate any suspect behavior. Students found guilty will incur penalties that could include a failing grade or being barred from future registration in other Economics courses or programs. The University may impose further penalties such as a notation on an official academic transcript, suspension or expulsion.

4. **Plagiarism**: Students must write their essays and assignments in their own words. When taking an idea/passage from another author, it must be acknowledged with quotation marks where appropriate and referenced with footnotes or citations. Plagiarism is an academic offence (see Scholastic Discipline for Undergraduate Students in the Western Calendar at http://westerncalendar.uwo.ca/PolicyPages.cfm?Command=showCategory&PolicyCategoryId=1&SelectedCalendar=Live&ArchiveID=#Page_20).

Western University uses software to check for plagiarism and students may be required to electronically submit their work. Those found guilty will be penalized as noted in point 3.

5. It is a Department of Economics policy that **NO** assignments be dated, stamped or accepted by staff. Students must submit assignments in class or to the instructor during office hours.

6. When appealing a mark, students should refer to the Student Academic Appeals section in the current Western Academic Calendar at: http://westerncalendar.uwo.ca/PolicyPages.cfm?Command=showCategory&PolicyCategoryId=1&SelectedCalendar=Live&ArchiveID=#Page_14
Please note the relevant deadlines.

The Department will not consider an appeal unless an attempt has been made to settle the matter with the instructor first. Students who remain dissatisfied with the outcome may proceed with a written appeal (e-mails are not acceptable) to the Undergraduate Director in Economics, stating the reasons for their appeal. A checklist is provided at: http://economics.uwo.ca/undergraduate/program_counselling/responsibilities_policies.html#appeals.
7. Systematic adjustments of a class grade distribution (either up or down) can occur in Economics courses. The fact that grades have been adjusted is not grounds for an appeal.

8. Note the following add and drop deadlines:

   Deadline to add a second term half course: January 14, 2020
   Deadline to drop a second term half course: March 7, 2020

9. Faculty of Social Science policy states that oversleeping or misreading an exam schedule is NOT grounds for a makeup. This rule applies to midterm and final exams in the Department of Economics.

**Policy on Tests, Final Exams and on Missed Academic Responsibilities**

Students who proceed to write a test or examination must be prepared to accept the mark. Rewriting tests or examinations, or retroactive reweighting of marks, is not permitted. Students must book travel arrangements AFTER final exam dates have been posted; travel is not an acceptable excuse for absence from a final exam.

Students who are temporarily unable to meet academic requirements due to extenuating circumstances can follow Western University procedures to request academic consideration through the following routes:

   a) Submit a Self-Reported Absence form if the conditions for submission are met (e.g., only for exams or assessments worth 30% or less of the course mark; not applicable to final exams; maximum 2 self-reported absences per academic year; see link for full list of conditions and info).

   If the conditions for submission of a Self-Reported Absence form are not met, then:

   b) For medical absences, submit a Student Medical Certificate (SMC) signed by a licensed medical or mental health practitioner along with a request for academic consideration to Academic Counselling in the student’s home Faculty (see link for full info); or

   c) For non-medical absences (e.g., religious or compassionate), submit appropriate documentation to Academic Counselling in the student’s home Faculty (see link for full info).

It is strongly recommended that students notify their instructors as soon as possible. University policy is that students must communicate with their instructors no later than 24 hours after the end of the period covered by either the self-reported absence or SMC, or immediately upon their return following a documented absence. Failure to follow University policy and procedures may result in denial of academic accommodation and a grade of zero. Students should also set up an appointment to meet with their instructor as soon as possible. If the instructor is not available, send an email message, copying the Undergraduate Coordinator at econugrd@uwo.ca.
Note: Academic consideration is not normally intended for long-term, recurring absences, an existing disability, or high levels of stress related to academic performance. In such cases, students should consult their academic counsellor. See link for full information. In all cases, if the documentation submitted to request academic consideration is not acceptable, students will receive a grade of zero for the missed test, exam, or assignment.

For full information about Western University’s policies and procedures for student absences and requests for academic consideration, please visit this link.

Policies Regarding Academic Accommodation

The Faculty of Social Science’s policies regarding academic accommodation is found at http://counselling.ssc.uwo.ca/procedures/having_problems/index.html. “Academic Rights and Responsibilities” are also outlined in the Western Calendar at http://westerncalendar.uwo.ca/PolicyPages.cfm?PolicyCategoryID=1&command=showCategory&SelectedCalendar=Live&ArchiveID=. Claiming that “you didn’t know what to do” is not an acceptable excuse for not following the stated procedures.

Policy Regarding Class Attendance

If the instructor deems a student’s class attendance as unsatisfactory, that student may be prohibited from writing the final examination. If there is intent to make use of this University policy, the student will be notified in writing.

Statement on Mental Health and Support Services

Students under emotional/mental distress should visit http://uwo.ca/health/mental_wellbeing/ for more information and a complete list of resources on how to obtain help.
